

Standard Features

Wireless crane scale is a good measuring instrument for weighing suspended goods. Weighing data is transmitted wirelessly. Weighing is convenient accurate, and reliable, it has various functions and is suitable for handling goods online. When using wireless electronic crane scale, it will save a lot of weighing time and cost and also can improve the efficiency. The most important thing is that it can be used in many places.

Standard Features

- Rugged Heavy duty design.
- Metal housing scales body.
- Safe over load 150% of FS.
- Ultimate overload 200% of FS.
- Rugged & heavy duty designed.
- Safe & Durable Construction.
- ON /OFF, Change, Zero, Lock.
- Weighing result locking key
- available to freeze the weight & read at your convenient.
- High tension shackle & Hook.
- 2000 Weighing records can be store.
- Wireless Communicator Distance Maximum 200m.

Capacity	5 Ton and over
Safe Distance from Melting Objects	. 1000° C 1.5 Meters . 1200° C 1.8 Meters . 1400° C 2.0 Meters . 1600° C 2.5 Meters
Features	Use in high heat application

Power

Built-in Rechargeable battery (70hrs approx) DC 6V/10A, AC Adaptor output 6V/1A.
Frequency : 450MHz.

A) Anti Heat Shield on request for High Temperature.

B) RS 232 Interface (Optional)

Optional

A) Wireless Indicator with built-in Printing indicator and Remote control.

B) Large LED Display

Wireless Crane Scale

HA-TH Series

Model	HA -2 TH	HA -5 TH	HA -10 TH	HA -20 TH	HA -30 TH
